

## PhD Candidate Profile

**Name:**

Liina Kuntus

**Research Group (if relevant):**

Laboratory of Environmental Technology

**Research Centre (if relevant):**

Department of Materials and Environmental Technology

**Department/School(s) (if relevant):**

School of Engineering

**College:**

Tallinn University of Technology

**Supervisor(s):**

Dr. Sergei Preis and Dr. Marina Trapido

**Funding body:**

N/A

**Area (field) of study:**

Environmental technology, including the application of advanced oxidation processes (AOPs), specifically applying gas-phase pulsed corona discharge (PCD) plasma to water treatment

**Thesis Title:**

Establishing application limits of pulsed corona discharge applied to aqueous media treatment

**Abstract:**

N/A

**Collaborations:**

N/A

**Publications:**

N/A

**Presentations:**

N/A
