Re: *application as Ph.D. candidate of "International Ph.D. School on Advanced Oxidation Processes"*.

Dear Prof. Sixto Malato,

I am a Ph.D. candidate at *Swansea University, UK* under the supervision of *Dr. Sudhagar Pitchaimuthu*, member of the Scientific Committee of the "International Ph.D. School in Advanced Oxidation Processes School" (IPS-AOP) and I would like to apply for "Ph.D. candidate" of the School.

My Ph.D. thesis deals with environmental application of Advanced Oxidation Processes and the tentative title is "*Developing and Optimising a Photoelectrocatalyst for Water Pollutant Treatment*".

My Ph.D. defence is expected for *December 2021*.

Confident in your positive reply,

Kind regards

K. B. Davies.

Ph.D. Candidate
